

# KDL Service Update

Dedicated to Providing Superior Diagnostics

## KDL RapidResults

### Same Day Skin Biopsy Service Now Offered at KDL

KDL Pathology is pleased to announce its latest innovation in quality patient care: Same Day Skin Biopsy Service. Same day analysis is provided to our partnering physicians as an added service to facilitate rapid diagnosis and treatment of cases presenting clinical significance. This service is in addition to emergency STAT cases, which may be done at any time on a pre-arranged basis.

#### Same Day Skin Biopsy Service Guidelines

- Service is available Monday through Friday
- Specimens must arrive in laboratory by 11 am
- Cases reported out by 4 pm and available online by Hypercharts or by fax
- Specimens accepted are punch biopsy (4 mm or less in diameter) or shave biopsy
- Specimens must be fixed *at least* one hour in formalin (Place specimens in formalin as soon as possible)
- Larger specimens require special handling. Please call in advance for instructions.
- Submitting clinician should include after hours phone number and contact information in case of unforeseen delay
- Cases needing additional stains and work-up will be reported as preliminary with final report to follow

#### Frozen or Fixed Surgical Margin Examination

- Same day service also available for margin examination of surgical biopsies
- Specimens may be evaluated by frozen sections or rapid fixation processing depending on size of specimen and tumor type
- Please call in advance for individual instructions for best possible quality of care

Please contact KDL client services for more information regarding this and other testing services or to receive requisitions and supplies at 865.584.1933. Visit us online at [www.labpath.com](http://www.labpath.com).

# KDL Pathology
